**Re: Mr David Haigh – Date of Birth 17/07/1977
Trevorian, Sancreed, Penzance, Cornwall TR20 8RP**

I am writing with Mr Haigh's consent to confirm that he is currently an inpatient at a Priory Hospital. He is suffering from a mental disorder of such severity as to warrant his urgent admission for treatment in hospital.

His mental disorder is related to severe psychological trauma. He is involved in legal proceedings related to this and it is critical for his recovery that he avoids any direct involvement with this for at least six weeks. This is to avoid any further pain or suffering and to maximise the effect and to increase the chances of treatment being effective.

He is taking powerful psychotropic medication, which may affect his concentration and memory.

Mr Haigh is being nursed in an environment where access to the internet, Wi-Fi and mobile telephone signal are strictly limited. He has been strongly advised to not have any communication on this or other external matters during the course of this admission.

I have advised Mr Haigh and he has consented, in the interest of his health and recovery that he should not be forwarded any mail or correspondence, which arrives at the hospital, during the time of his admission.

Yours sincerely

**Dr Paul McLaren MA MSc FRCPsych
Consultant Psychiatrist and Medical Director**
